B.Tech	Trinity College of Engineering and Research, Pune	SPPU	3 rd year	Pursuing 9.14/10
B.Tech	Trinity College of Engineering and Research, Pune	SPPU	2 nd year	9.05/10
CS Diploma	SGP College, Shrigonda	MSBTE	2024	88.06%
SSC	Mahadaji Shinde Vidyalaya, Shrigonda	Maharashtra Board	2021	82.00%

INTERNSHIPS:

- **ProAzure Software Solutions Pvt. Ltd.** **09Jun23-20July23**
 - Position: Trainee Engineer
 - Software Used: VScode - Sublime text.
 - Internship for the position of Trainee Engineer in RPA, Android and Web Development.
- **Edunet Foundation.** **26Dec25-24Jan26**
 - Position: Full Stack web developement Intern
 - Technologies : HTML, CSS, JavaScript, Bootstrap, Django, MySQL, SQLite, Git, GitHub
 - Software Used: VScode , Postman, Thunder Client, Streamlit
 - Learned **Full Stack Web Development from Frontend UI to Backend API Development.**
 - Built REST APIs using **Django for Authentication, Coupon Management, and Wallet System.**
 - Designed **Database Structure** and implemented **Secure Authentication** with **Wallet Transaction Logic.**
 - Improved Communication, Teamwork, **Presentation Skills**, and gained knowledge of **Deployment** and **Project Lifecycle.**

PROJECTS:

- **"Unused Coupons Swap System (DealSwap)"** **30Dec25-24Jan26**
 - Developed a platform where users can **buy and sell unused coupons.**

- Implemented **wallet-based payment system**, Built secure authentication using **JWT**, Created backend APIs for coupon listing, buying, wallet, and transactions, Integrated frontend with backend APIs, Implemented automatic wallet balance update after purchase, Stored purchase history and transaction records.

Technologies Used

- Django (Backend & APIs), HTML, CSS, JavaScript, Bootstrap (Frontend)
- MySQL (Database).
- JWT Authentication.
- Git & GitHub.

Role In Project

- Backend development, Database design, API development, Wallet logic implementation, Integrated frontend with backend, Testing API's using Thunder Client.

● "Automated CI/CD Pipeline for Django Notes Application"

08Oct25-24Oct25

- Designed and implemented a fully automated **CI/CD pipeline** to streamline build, test, and deployment processes for a Django-based Notes application.
- Configured **GitHub webhooks** to trigger Jenkins pipelines automatically on every code commit.
- Containerized the application using **Docker**, ensuring consistency across development and production environments.
- Automated Docker image build and push to **Docker Hub** with secure credential management.
- Deployed the application on **AWS EC2**, enabling fast, reliable, and near zero-downtime deployments within minutes of code changes.

Technologies Used

- **Docker** – Containerization and image management.
- **AWS EC2** – Cloud infrastructure for application hosting.
- **GitHub** – Source code management and webhook integration.
- **Django (Python)** – Backend web application framework.

TECHNICAL SKILLS:

- Python
- MySQL
- Django
- HTML and CSS
- JavaScript
- AI tool expert
- Android (Basic)
- Java (Basic)
- Machine Learning
- Model Training
